

Massimiliano Guzzo

Publications list

Guzzo M., Lega E., “Geometric chaos indicators and computations of the spherical hypertube manifolds of the spatial circular restricted three-body problem”, *Physica D*, In press, 2018.

Guzzo M., Lega E., “Scenarios for the dynamics of comet 67P/Churyumov-Gerasimenko over the past 500 kyr”, *Monthly Notices of the Royal Astronomical Society*, Volume 469, Issue Suppl 2, 21, 2017.

Guzzo M., Lega E., “The past dynamics of comet 67P/Churyumov-Gerasimenko”, in the proceedings of the conference ‘From Giotto to Rosetta, 30 years of cometary science from space and ground’, edited by C. Barbieri and C.G. Smeda, 2017.

Guzzo M., Lega E., “Computation of transit orbits in the three-body-problem by Fast Lyapunov Indicators”. *Proc. of the XVII NCAS Belgrade, Publications of the Astronomical Observatory of Belgrade*, vol. 96, 71-78, 2017.

Guzzo M., Chierchia L. and Benettin G., “The steep Nekhoroshev’s Theorem”, *Communications in Mathematical Physics*, Vol. 342, Issue 2, pp 569-601, 2016.

Lega E., Guzzo M., “Three-dimensional representations of the tube manifolds of the planar restricted three-body problem”, *Physica D*, 352:41-52, 2016.

Guzzo M., Lega E., “The Nekhoroshev Theorem and the Observation of Long-term Diffusion in Hamiltonian Systems”, *Regular and Chaotic Dynamics*, Vol. 21, No. 6, pp. 707-719, 2016.

Lega E., Guzzo M., “Theory and Applications of the Fast Lyapunov Indicator (FLI) Method”, in *Lecture Notes in Physics n. 915, Chaos Detection and Predictability*, pp.35-54, 2016.

Guzzo M., Lega E., “A study of the past dynamics of comet 67P/Churyumov-Gerasimenko with fast Lyapunov indicators”, *Astronomy & Astrophysics*, vol. 579, A79, 1-7, 2015.

Guzzo M., “The Nekhoroshev theorem and long-term stabilities in the Solar System”, *Serbian Astronomical Journal*, pp. 1-10, n. 190, 2015.

Schirinzi G. and Guzzo M., “Numerical Verification of the Steepness of Three and Four Degrees of Freedom Hamiltonian Systems”, *Regular and Chaotic Dynamics*, vol. 20, 1, pp. 1-18, 2015.

*Università degli Studi di Padova, Dipartimento di Matematica ‘Tullio Levi-Civita’
Via Trieste 63, Padova – Italy*

Guzzo M. and Lega E., "Evolution of the tangent vectors and localization of the stable and unstable manifolds of hyperbolic orbits by Fast Lyapunov Indicators", *SIAM J. Appl. Math.*, vol. 74, n. 4, 1058-1086, 2014.

Guzzo M., Chierchia L. and Benettin G., "The steep Nekhoroshev's Theorem and optimal stability exponents (an announcement)", *Rend. Lincei Mat. Appl.*, 25, Issue 3, 293-299, 2014.

Schirinzi G. and Guzzo M., "On the formulation of new explicit conditions for steepness from a former result of N.N. Nekhoroshev." *Journal of Mathematical Physics*, 54, articolo 072702, 2013.

Guzzo M. and Lega E., "The numerical detection of the Arnold web and its use for long-term diffusion studies in conservative and weakly dissipative systems", *Chaos*, vol. 23, articolo 023124, 2013.

Guzzo M. and Lega E., "On the identification of multiple close-encounters in the planar circular restricted three body problem.", *Monthly Notices of the Royal Astronomical Society*, 428, 2688-2694, 2013.

Bernardi O., Cardin F. and Guzzo M., "New Estimates for Evans' Variational Approach to Weak KAM Theory", *Communications in Contemporary Mathematics*, 15, 2, Art. numero 1250055, 36 pages, 2013.

Bernardi O., Cardin F. and Guzzo M., "Convergence to the time average by stochastic regularization", *Journal of Nonlinear Mathematical Physics*, vol. 20, n. 1, 9-27, 2013.

Benettin G., Fassò F. and Guzzo M., "Il corpo rigido in rapida rotazione". In *Complementi alle Lezioni di Meccanica Razionale di T. Levi Civita e U. Amaldi (VOL.3)*, Edizioni CompoMat, 281-300, 2012.

Lega E., Guzzo M. and Froeschlé C., "Detection of close encounters and resonances in three-body problems through Levi-Civita regularization", *Monthly Notices of the Royal Astronomical Society*, 418, 107-113, 2011.

Todorović N., Guzzo M., Lega E. and Froeschlé C., "A numerical study of the stabilization effect of steepness", *Celestial Mechanics and Dynamical Astronomy*, 110, 389-398, 2011.

Guzzo M., Lega E. and Froeschlé C., "First numerical investigation of a conjecture by N.N. Nekhoroshev about stability in quasi-integrable systems", *Chaos*, vol. 21, articolo 033101, 2011.

Lega E., Guzzo M. and Froeschlé C., "Numerical studies of hyperbolic manifolds supporting diffusion in symplectic mappings." *The European Physical Journal, Special Topics*, vol. 186; p. 3-31, 2010.

Lega E., Guzzo M. and Froeschlé C., "A numerical study of the hyperbolic manifolds in a priori unstable systems. A comparison with Melnikov approximations." *Celestial Mech. and Dyn. Astron.*, vol. 107; p. 115-127, 2010.

Lega E., Guzzo M. and Froeschlé C., "A numerical study of the size of the homoclinic tangle of hyperbolic tori and its correlation with Arnold diffusion in Hamiltonian Systems." *Celestial Mech. and Dyn. Astron.*, vol. 107; p. 129-144, 2010

Guzzo M., "Mechanisms for the Production of Chaos in Dynamical Systems." In *Extra-Solar Planets The Detection, Formation, Evolution and Dynamics of Planetary Systems*, edited by B. Steves, M. Hendry, A. C. Cameron, p. 185-209, 2010.

Guzzo M., "Chaos and Diffusion in Dynamical Systems Through Stable-Unstable Manifolds." In *Space Manifolds Dynamics, Novel Spaceways for Science and Exploration*, p. 97-112, Springer, 2010.

Guzzo M., Lega E. and Froeschlé C., "A numerical study of the topology of normally hyperbolic invariant manifolds supporting Arnold diffusion in quasi-integrable systems." *Physica D*, vol. 238; p. 1797-1807, 2009.

Guzzo M., Lega E. and Froeschlé C., "A Numerical Study of Arnold Diffusion in a Priori Unstable Systems." *Communications in Mathematical Physics*, vol. 290; p. 557-576, 2009.

Celletti A. and Guzzo M., "Cantori of the dissipative sawtooth map." *Chaos*, vol. 19, articolo 013139, 2009.

Lega E., Guzzo M. and Froeschlé C., "Measure of the exponential splitting of the homoclinic tangle in four-dimensional symplectic mappings." *Celestial Mechanics and Dynamical Astronomy*, Vol. 104, 1-2, 191-204, 2009.

Bernardi O., Cardin F., Guzzo M. and Zanelli L., "A PDE approach to finite time indicators in Ergodic Theory." *Journal of nonlinear mathematical Physics*, vol. 16, 2, p. 195-206, 2009.

Namouni F., Guzzo M. and Lega E., "On the integrability of stellar motion in an accelerated logarithmic potential." *Astronomy & Astrophysics*, 489, Issue 3, pp.1363-1367, 2008.

Benettin G., Guzzo M. and Marini V., "Adiabatic chaos in the spin-orbit problem." *Celestial Mech. and Dyn. Astron.*, Vol. 101, n 1-2, 203-224, 2008.

Benettin G., Guzzo M. and Neishtadt A., "A new problem of adiabatic invariance related to the rigid body dynamics." *Discrete and Continuous Dynamical Systems A*, vol. 21, n. 3, 959-975, 2008.

] Pavlović R. and Guzzo M., "Fullfilment of the conditions for the application of the Nekhoroshev theorem to the Koronis and Veritas asteroid families." *Monthly Notices of the Royal Astronomical Society*, 384, 1575-1582, 2008.

Guzzo M., Bernardi O. and Cardin F., "The experimental localization of Aubry-Mather sets using regularization techniques inspired by viscosity theory." *Chaos*, vol. 17, articolo 033107, 2007.

Namouni F. and Guzzo M., "The accelerated Kepler problem." *Celestial Mechanics and Dynamical Astronomy*, vol 99, n. 1, 31-44, 2007.

Guzzo M., "An overflight on the Nekhoroshev theorem." In *Lecture Notes in Physics*, vol. 729, "Topics in Gravitational Dynamics", Benest, Froeschlé, Lega eds., Springer, 1-28, 2007.

Lega E., Froeschlé C. and Guzzo M., "Diffusion in Hamiltonian quasi-integrable systems." In *Lecture Notes in Physics*, vol. 729, "Topics in gravitational dynamics", Benest, Froeschlé, Lega eds., Springer, 29-65, 2007.

Guzzo M., Lega E. and Froeschlé C., "Diffusion and stability in perturbed non-convex integrable systems", *Nonlinearity*, Vol. 19, 5, 1049-1067, 2006.

Froeschlé C., Lega E. and Guzzo M., "Analysis of the chaotic behaviour of orbits diffusing along the Arnold web", *Celestial Mechanics and Dynamical Astronomy*, Vol. 95, 1-4, 141-153, 2006.

Guzzo M., "The web of three-planet resonances in the outer Solar System II: a source of orbital instability for Uranus and Neptune." *Icarus*, vol. 181, 475-485, 2006.

Benettin G., Fassò F. and Guzzo M., "Long term stability of proper rotations and local chaotic motions in the perturbed Euler rigid body". *Regular and Chaotic Dynamics*, vol. 11, 1-17, 2006.

Guzzo M., "Fourier analysis of chaotic motions and applications to Celestial Mechanics", In "Chaotic Worlds: From Order to Disorder in Gravitational N-Body Dynamical Systems", Nato Science series II-Vol. 227. Edited by B.A. Steves, A.J. Maciejewski and M. Hendry, 167-200, 2006.

Froeschlé C., Guzzo M. and Lega E., "Local and global diffusion along resonant lines in discrete quasi-integrable dynamical systems", *Celestial Mechanics and Dynamical Astronomy*, vol. 92, n. 1-3, 243-255, 2005.

Guzzo M., Lega E. and Froeschlé C., "First Numerical Evidence of Arnold diffusion in quasi-integrable systems". *DCDS B*, vol. 5, n. 3, 687-698, 2005.

Guzzo M., "The web of three-planets resonances in the outer Solar System", *Icarus*, vol. 174, n. 1., pag. 273-284, 2005.

Guzzo M., "A direct proof of the Nekhoroshev theorem for nearly integrable symplectic maps", *Annales Henri Poincaré*, vol. 5, n. 6, 1013-1039, 2004.

Autori Benettin G., Fassò F. and Guzzo M., "Long Term Stability of Proper Rotations of the Perturbed Euler Rigid Body", *Communications in Mathematical Physics*, 250, 133-160, 2004.
